58 (HELP) (SPLIT A) People are still hurting and need help. This is not the time to allow people to lose their homes and savings. We have helped the big banks but we need to help Main Street too. Let's help people get back on their feet with job training and education for people displaced by the current economy and extending, not cutting health clinics and health care for working families. ....

59 (REFORM) (SPLIT D) Washington is dominated by big banks, big donors and corporate lobbyists. So politicians rush to bailout Wall Street. Big oil keeps its tax breaks and companies still get breaks for exporting jobs. The middle class won't catch a break until we confront the power of money and the lobbyists. Expose their meetings, clean out tax loopholes, and limit donations. Getting the economy back for the middle class starts with changing politics. ....

America needs to get back to creating American jobs and growing the middle class. China will soon be the largest economy, owning trillions of our debt. Our leading export is jobs, even as we reward companies that outsource jobs. We have to get American companies to expand in America. We have to invest in American education, innovation and new industries that grow American jobs. ....	36	25	11	15	11	3	61	71	26

61 (MIDDLE CLASS) (SPLIT A)									
The biggest problem we face is the decline of the middle class. The middle class has been smashed and struggles to keep up with the rising costs of gasoline, college education and health care. We need to help small businesses, help people who work hard with education and training and protect middle class programs like Medicare, and invest in innovation and new energy to create the middle class jobs of the future. ....	33	24	11	18	13	2	56	67	31

62 (DIDN'T WORK) Increased spending is not the answer to the economy. The President and his party's leaders embarked on a stimulus spending spree that added hundreds of billions of dollars to the debt, yet failed to deliver on its promises to create jobs. Now they want to increase taxes on small businesses. We cannot continue this endless taxing and spending that will burden middle class families with more debt and cost our children their economic future. ....	28	19	9	19	21	4	<b>47</b>	<b>56</b>	<b>40</b>

63 (ACT NOW) The government borrows 4 billion dollars every day to pay for a spending binge it cannot afford. The time to act is now. By the year 2030, the debt as a share of the economy will be an explosive 146 percent. Spending on Medicare, Medicaid, Social Security, and interest on the national debt will eclipse all anticipated revenue by 2025. We need to grow small businesses and middle class jobs, not the government, and reduce the debt for our children. That is the only way to truly improve our economy. ....	30	23	11	16	17	3	<b>53</b>	<b>64</b>	<b>33</b>

64 (HEALTH CARE) President Obama and the Democrats promised lower health care costs, but did not deliver. Their plan will explode our deficit by one trillion dollars, raises taxes when people and businesses are struggling, and takes away the health care choices that should be made by individuals, not Washington bureaucrats. Businesses are not hiring people because they cannot afford the health care. We need to focus on reining in health care costs, which are driving the deficit and killing jobs. ....	28	18	10	17	24	3	46	56	41

Ease regulations and red tape on businesses, cut business taxes to help them grow, hire people and expand their businesses - that is the way to improve the economy and create middle class jobs in this country. ....	33	22	12	14	15	3	56	68	29
